

Cement industry

The rotary kiln is an important thing for the cement plant. Raw material is fed into one side and superheated clinker comes out on the other.

The rotary kiln is comprised of many zones, with each one imposing different requirements and challenges on the refractory lining.

ASFOUR REFRACTORIES has been offering our customers a wide range of refractory and insulation solutions to serve our CEMENT industry customers around the region.

Our ability to offer quality and customized solutions has helped us set our footprints in the CEMENT industry.
